A ROAD SAFETY
INITIATIVE BY

YI
GURUGRAM

Road Safety Practical Tips

1. Always use the turn indicator light when stopping your vehicle on the side of a road, when moving left or right on the road and when making a turn.
2. Do not enter a one-way road even if its a shorter route. Driving in a one way road in the wrong direction can lead to accidents with other vehicles and pedestrians.
3. Alway stay on the left side of the road even if it means a longer distance. Driving on the right lane on a highway for the sake of convenience can lead to a fatal accident.
4. Avoid overtaking in turns and curves as there will be less visibility of oncoming traffic. Do not pass a larger vehicle on its left side when making a left turn.
5. Always be considerate to other commuters on the road and park your vehicle in a way that does not obstruct the flow of traffic for other vehicles.|
6. Do not park your vehicle close to a turn at a road junction. It can obstruct the view for other vehicles crossing the junction.

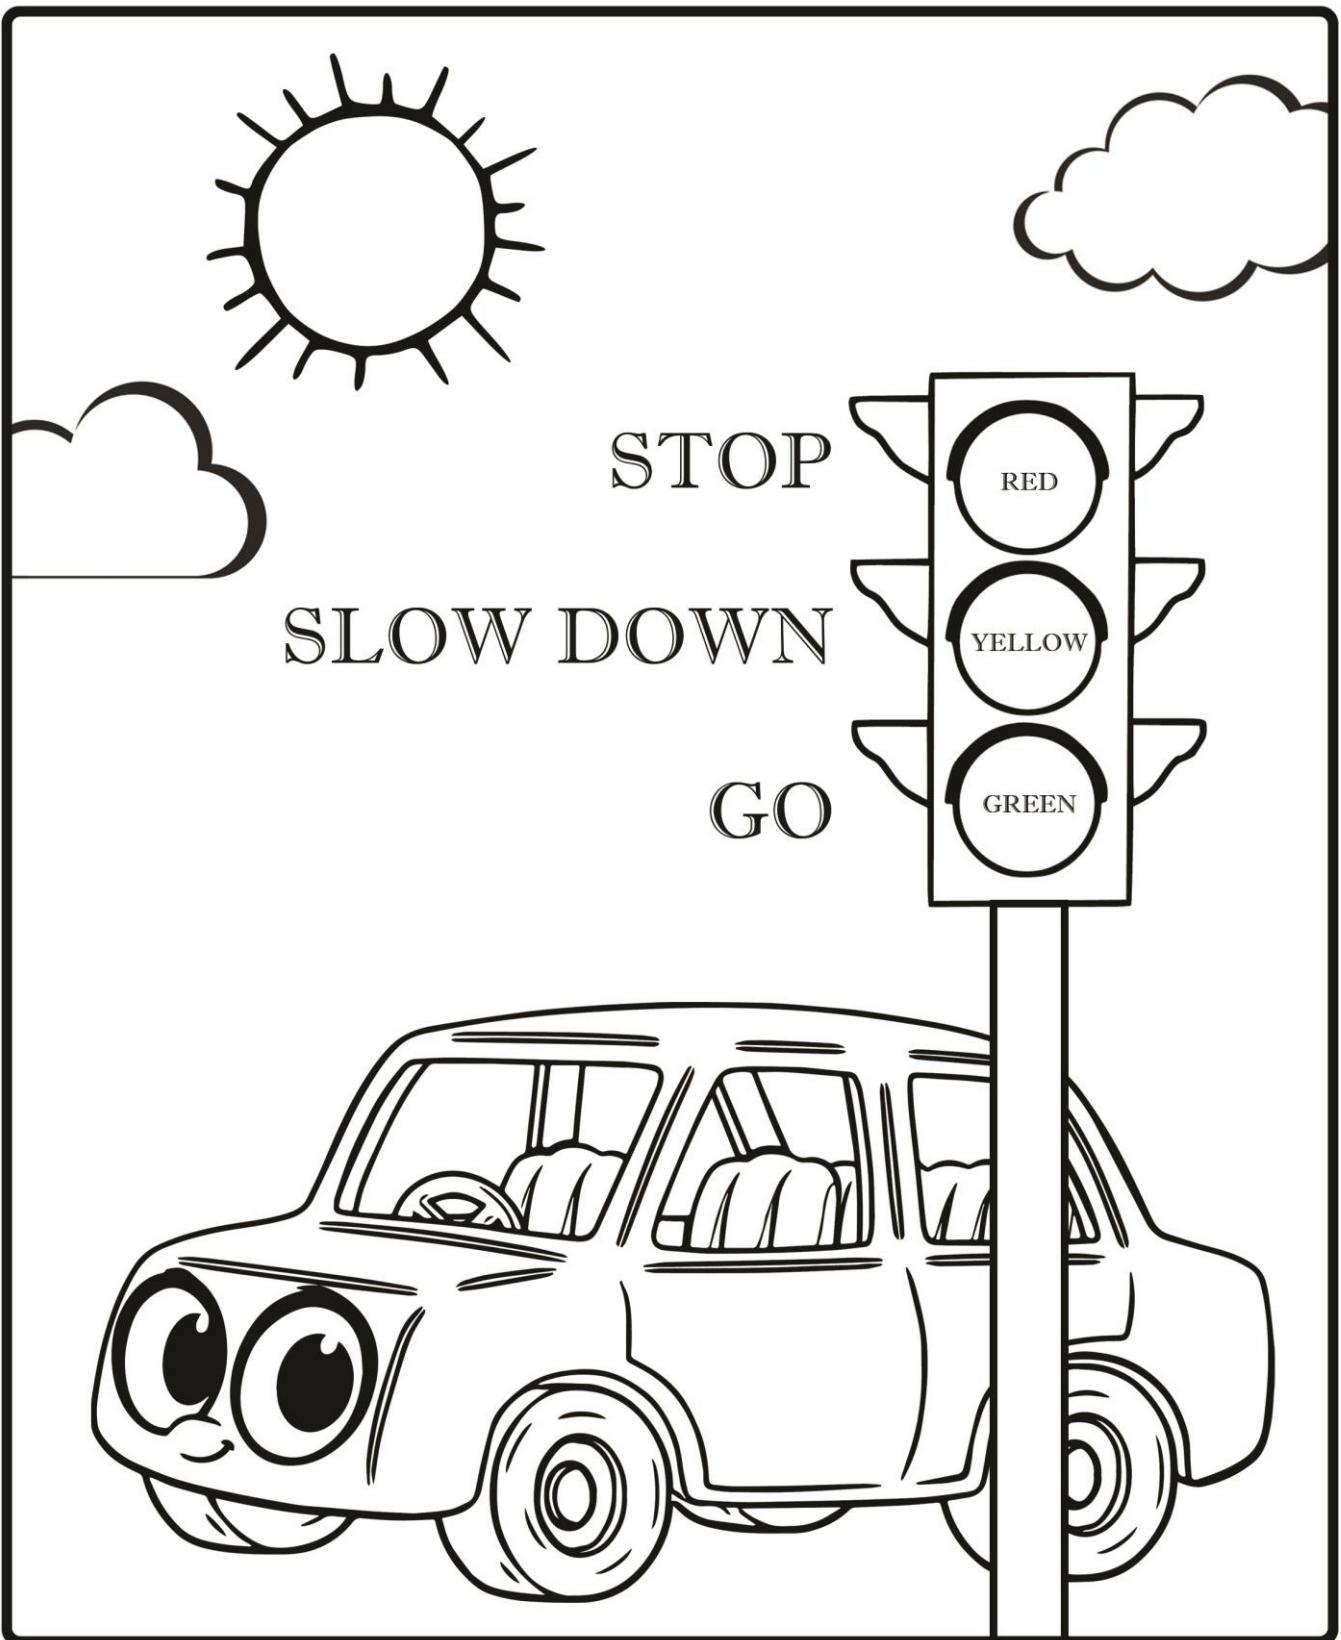

Useful Traffic Signs

ROAD SAFETY

Coloring Book

Slow down your vehicle when the traffic signal is YELLOW and stop when the signal turns RED. Go forward only after the signal turns GREEN.

WHY?

Speeding up when the signal is yellow and moving forward before the signal changes to green can lead to a collision.

Do not leave your arms or head outside the car window at any time.

WHY?

A vehicle crossing closely on your side may hit you and cause serious injury.

Make sure that doors are locked when kids are in the car.

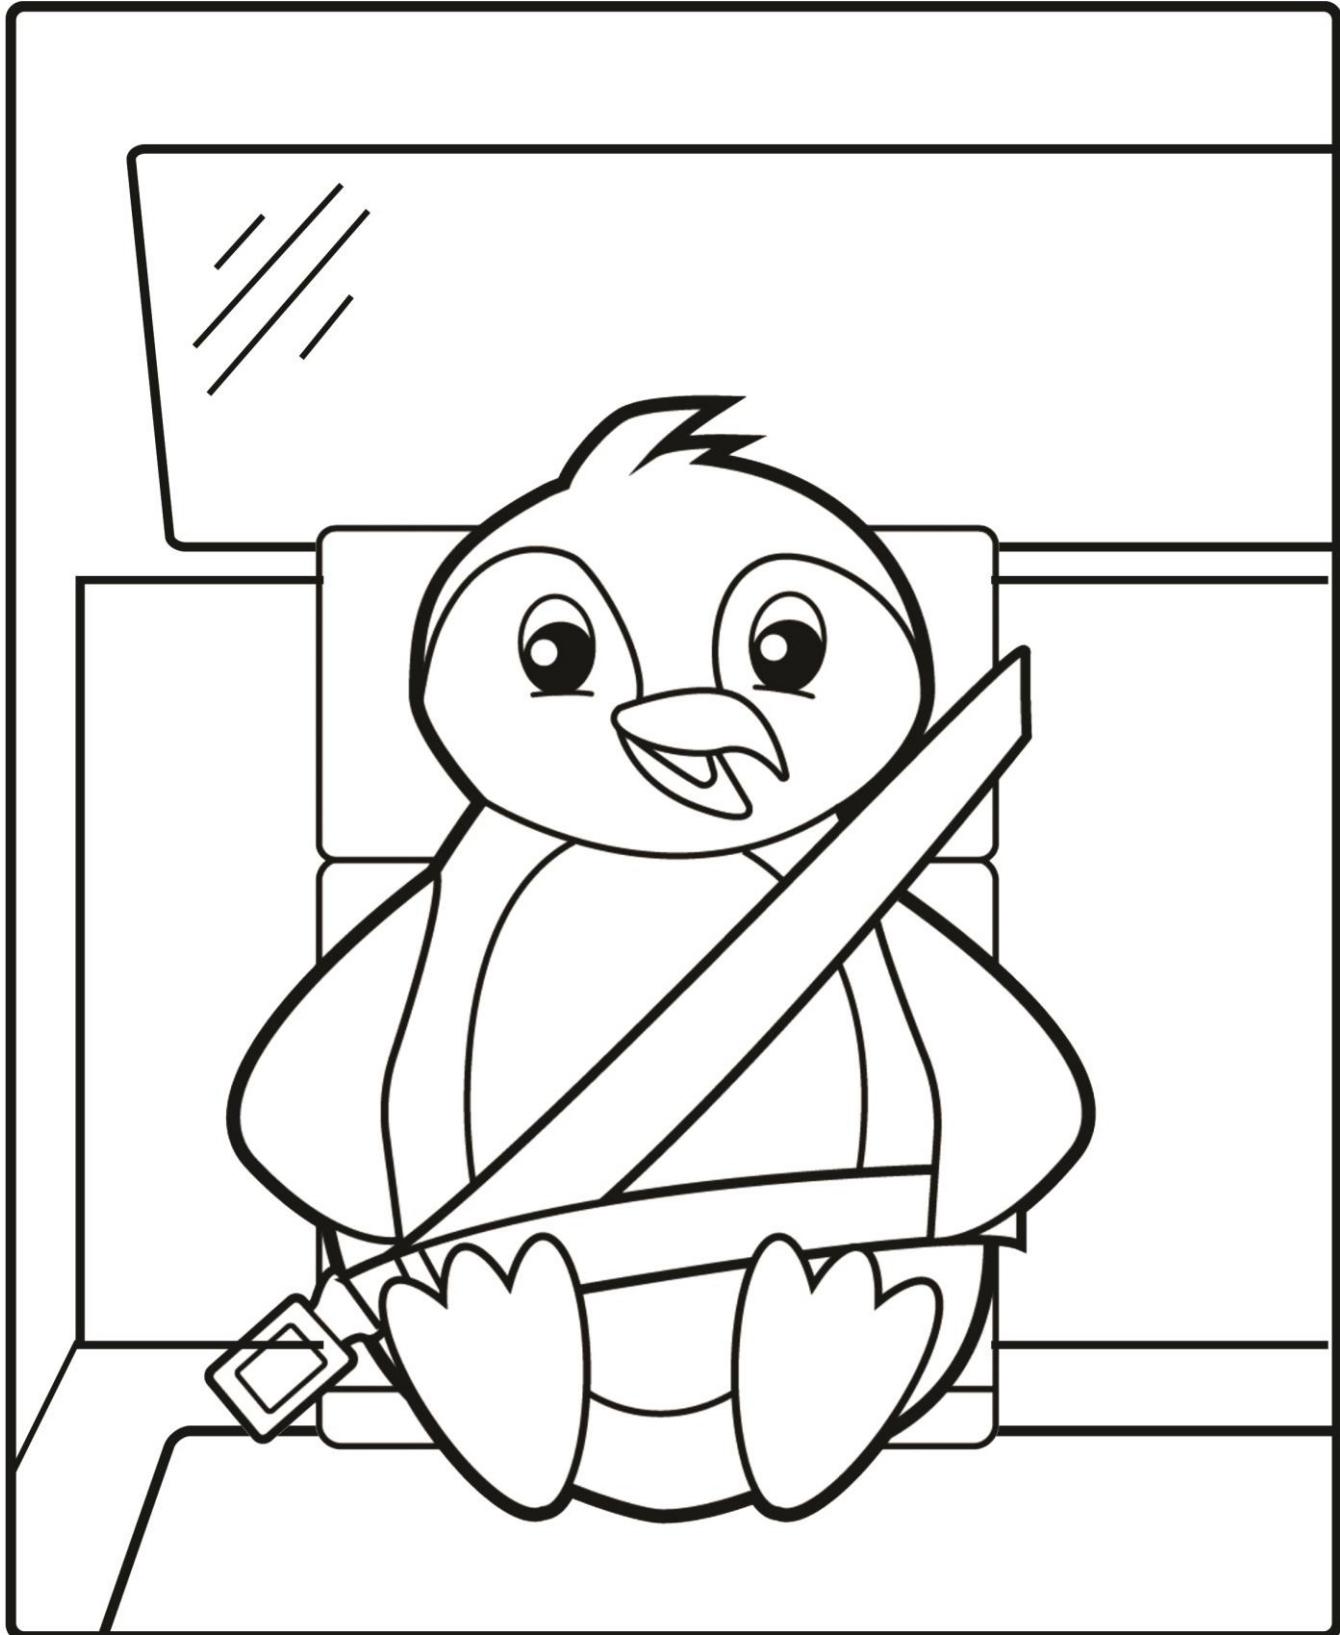

WHY?

If kids open a door accidentally, they could fall out or cause an accident.

When crossing any road without pedestrian signal light, pause and look at both sides carefully before crossing the road.

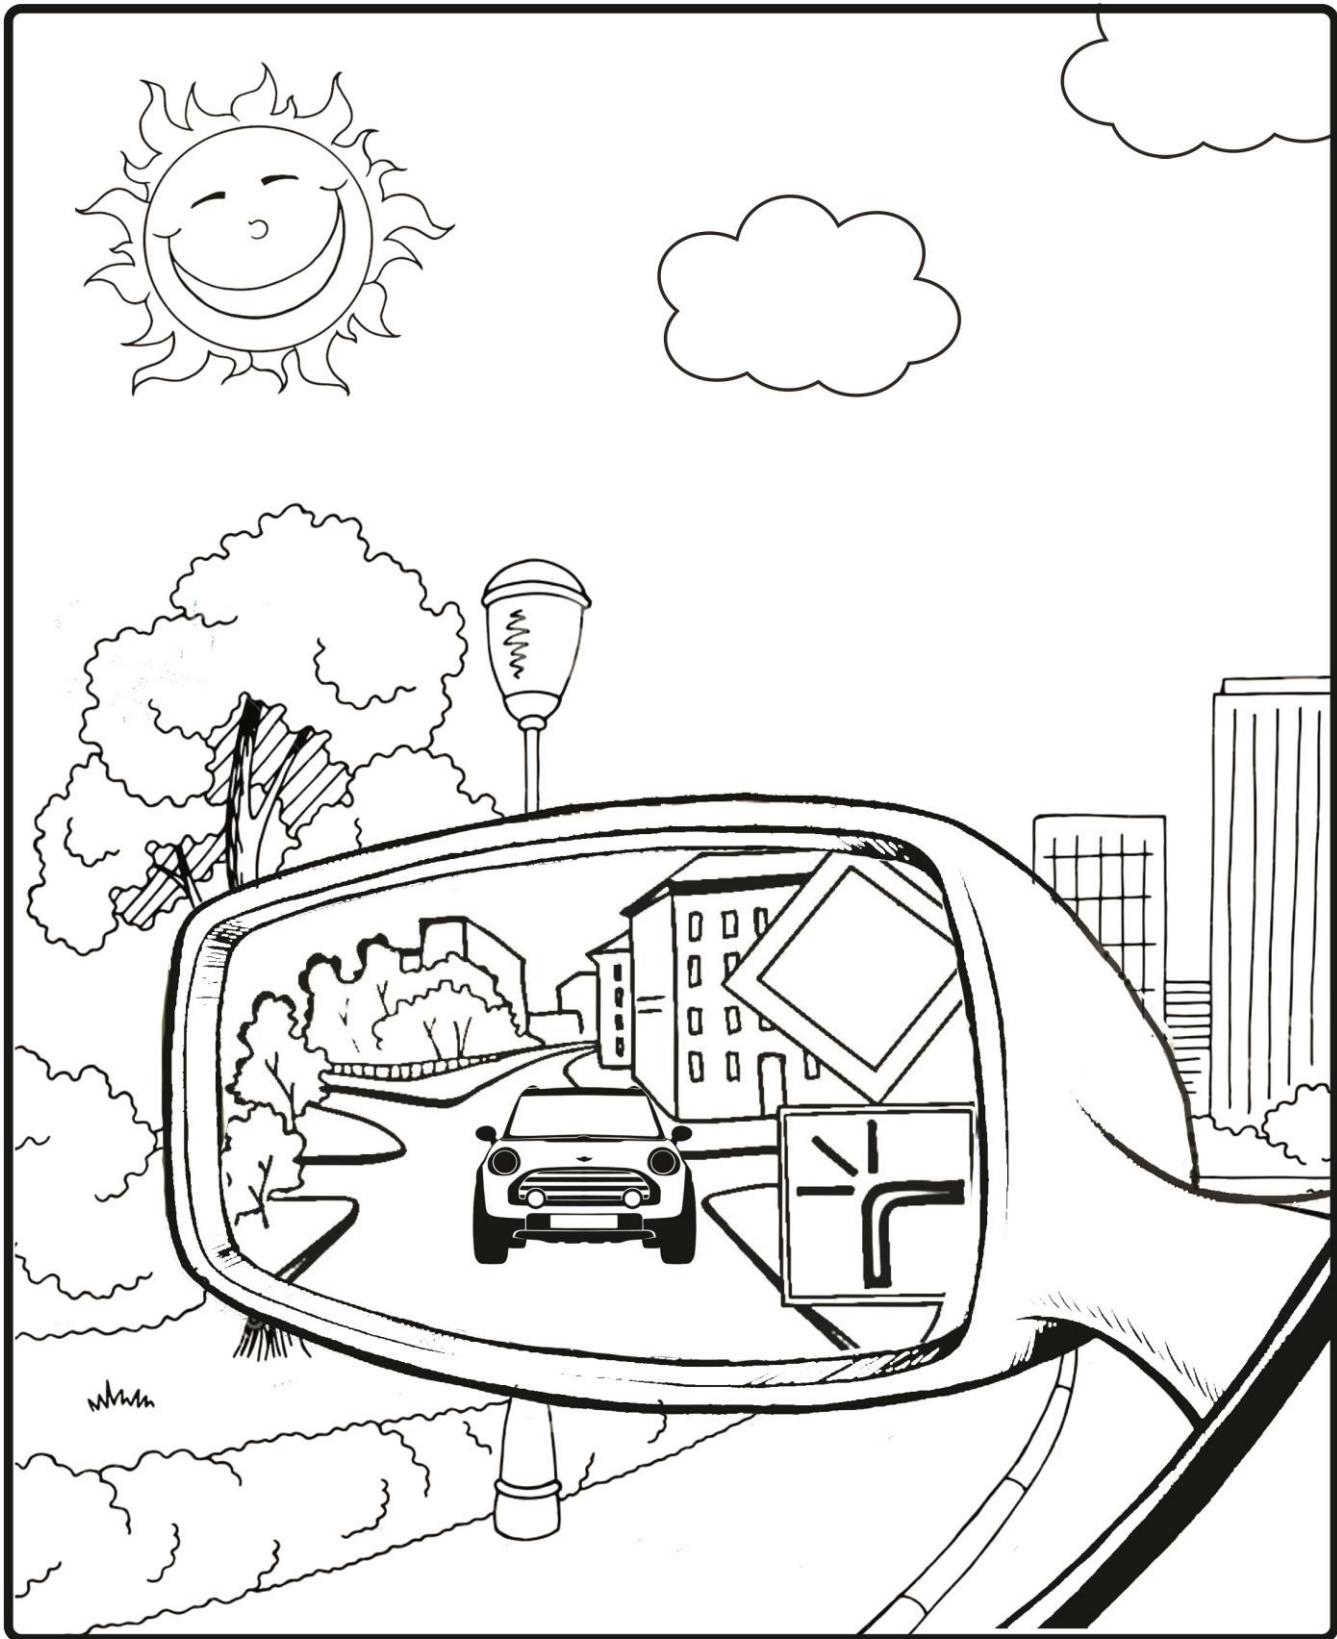

WHY? Fast moving vehicles can come from either side. So it is important to wait until there is a gap to cross the road safely.

Always wear your seat belt as soon as you get into a car.

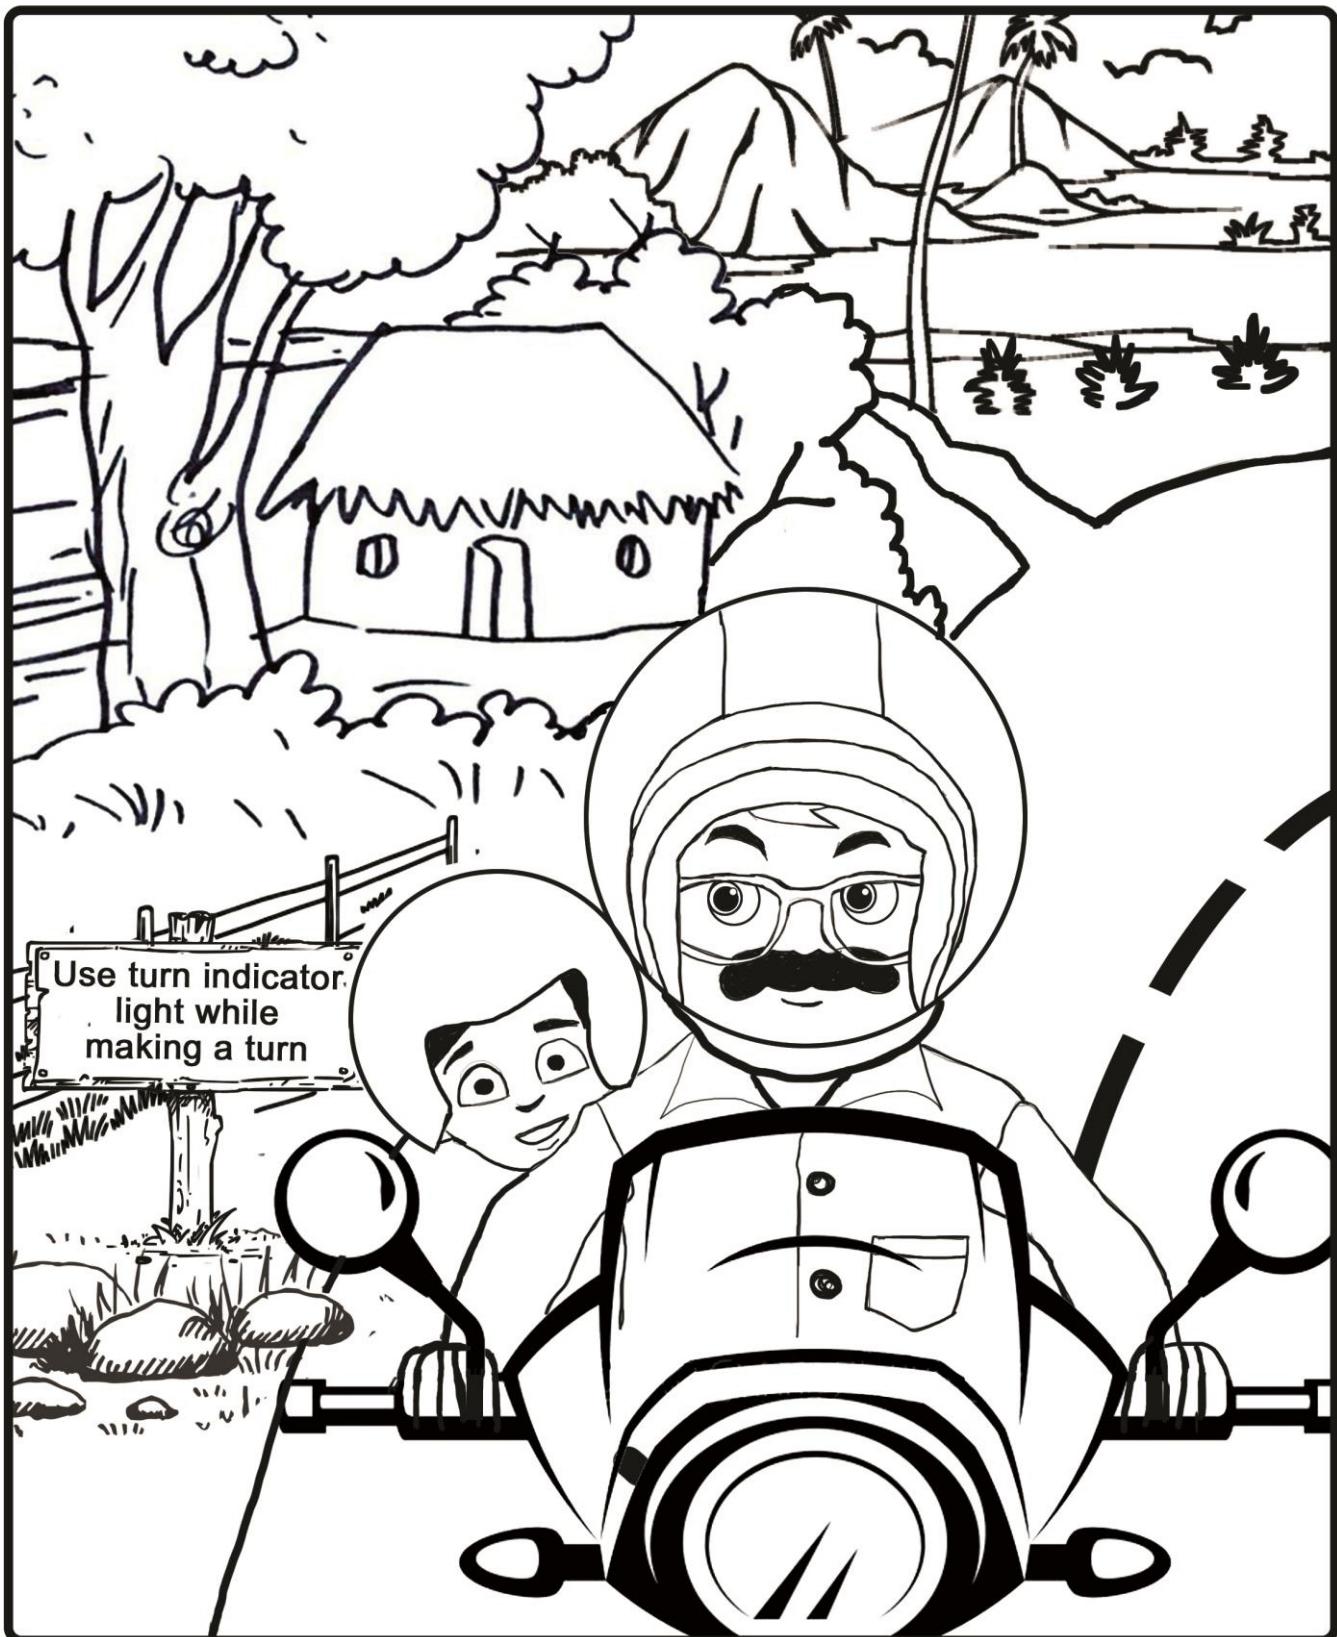

WHY?

In an accident, the seat belt keeps the passenger in the same place for airbags to work effectively and reduces secondary impact dangers.

Check the rearview mirrors for overtaking vehicles before moving left or right on the road. If a vehicle tries to overtake, let them overtake easily.

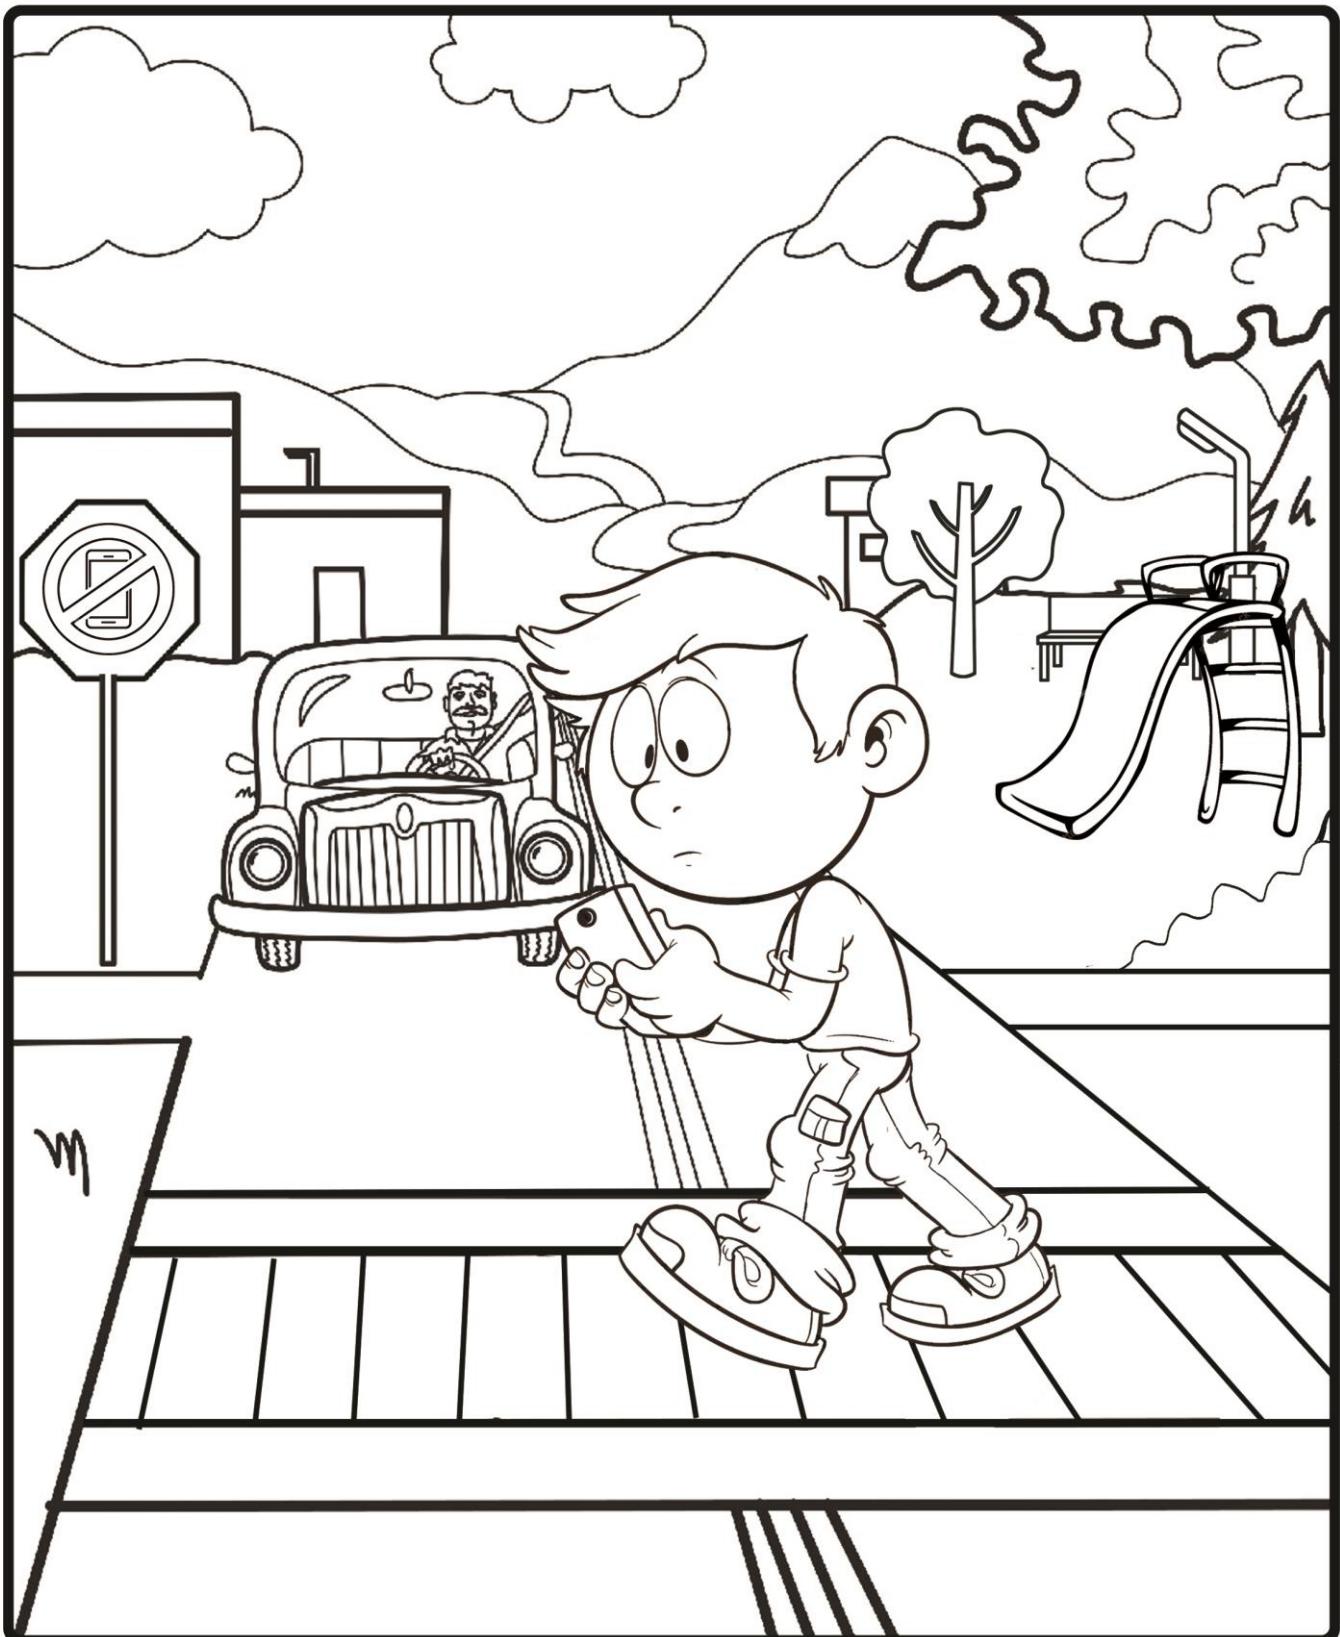

WHY? Moving left or right without seeing the rearview mirror may result in collision with the vehicle that is trying to overtake from behind.

Wear helmet when going out on a bike with your parents and make sure your parents also wear helmet when riding their bike.

WHY?

Helmets save lives by preventing serious head injuries in an accident.

Do not walk distracted on a phone call or SMS when walking on the road or crossing the road. Always be alert about the traffic near you.

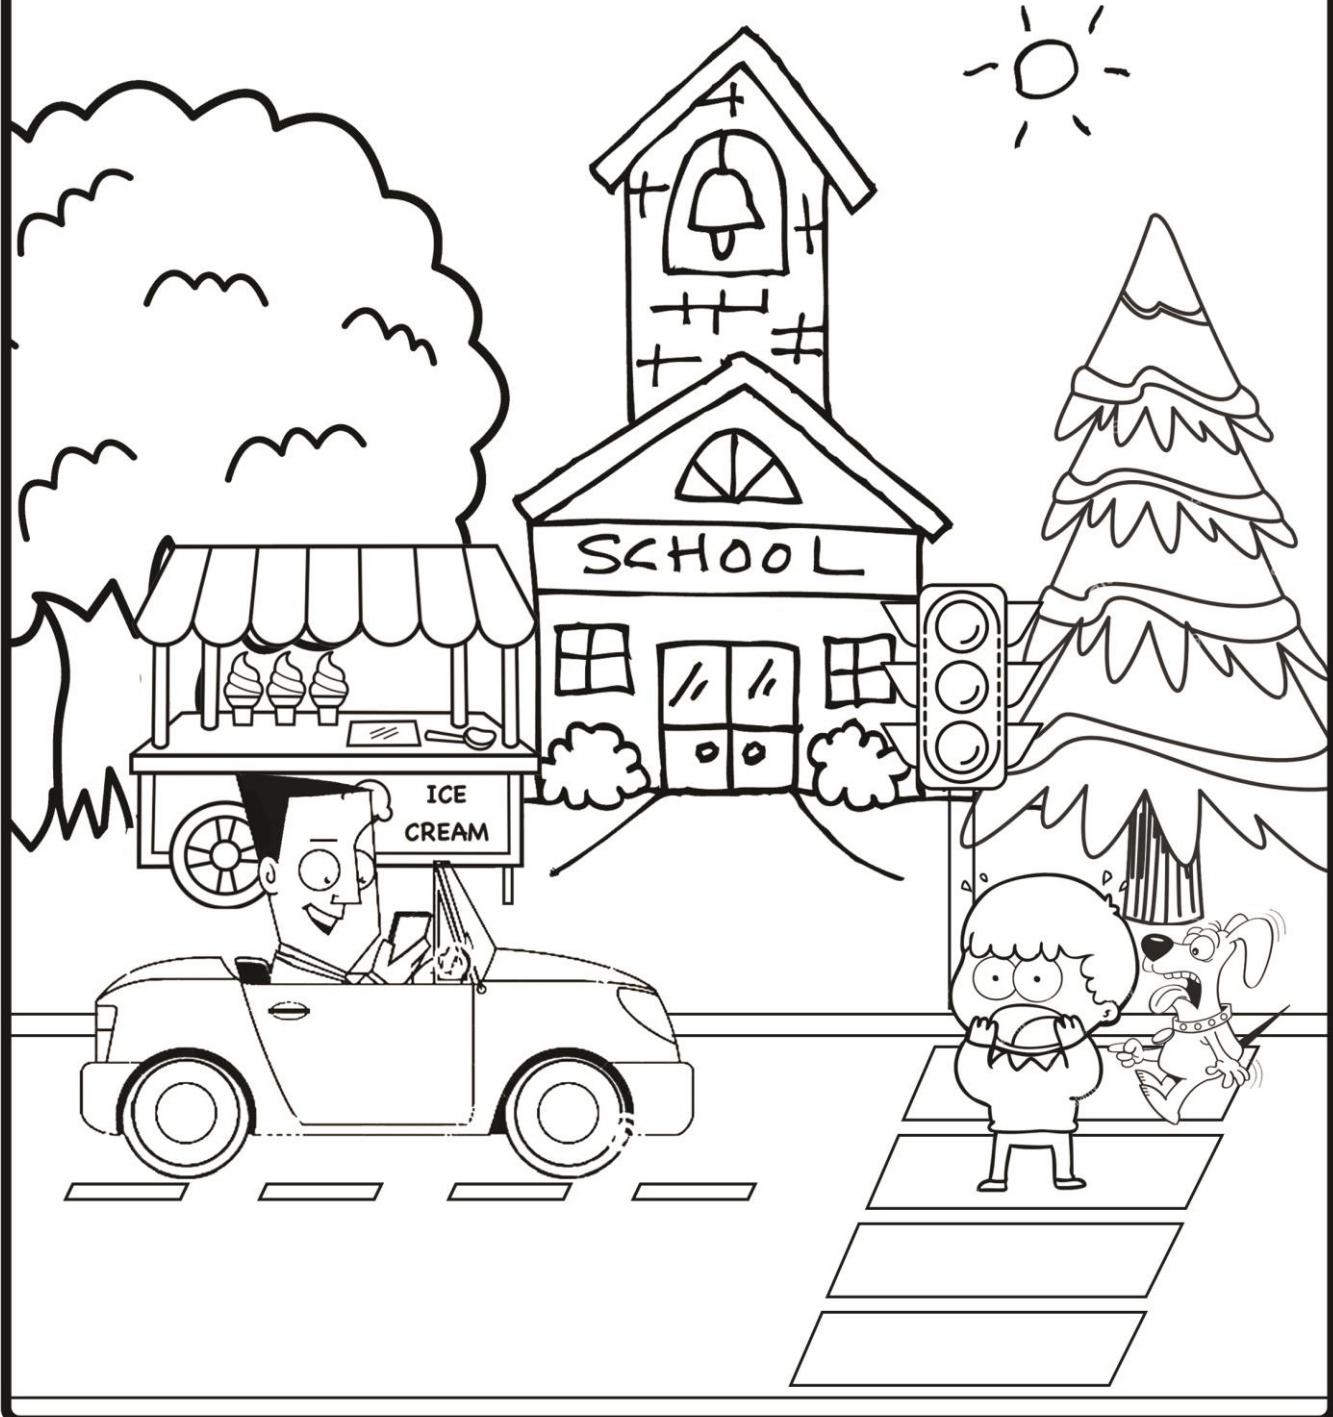

WHY? Being distracted on the mobile can make you miss vehicles coming towards you on the road and can lead to an accident.

Kindly avoid unnecessary honking when driving any vehicle. It is mandatory that you DO NOT honk near hospitals and schools.

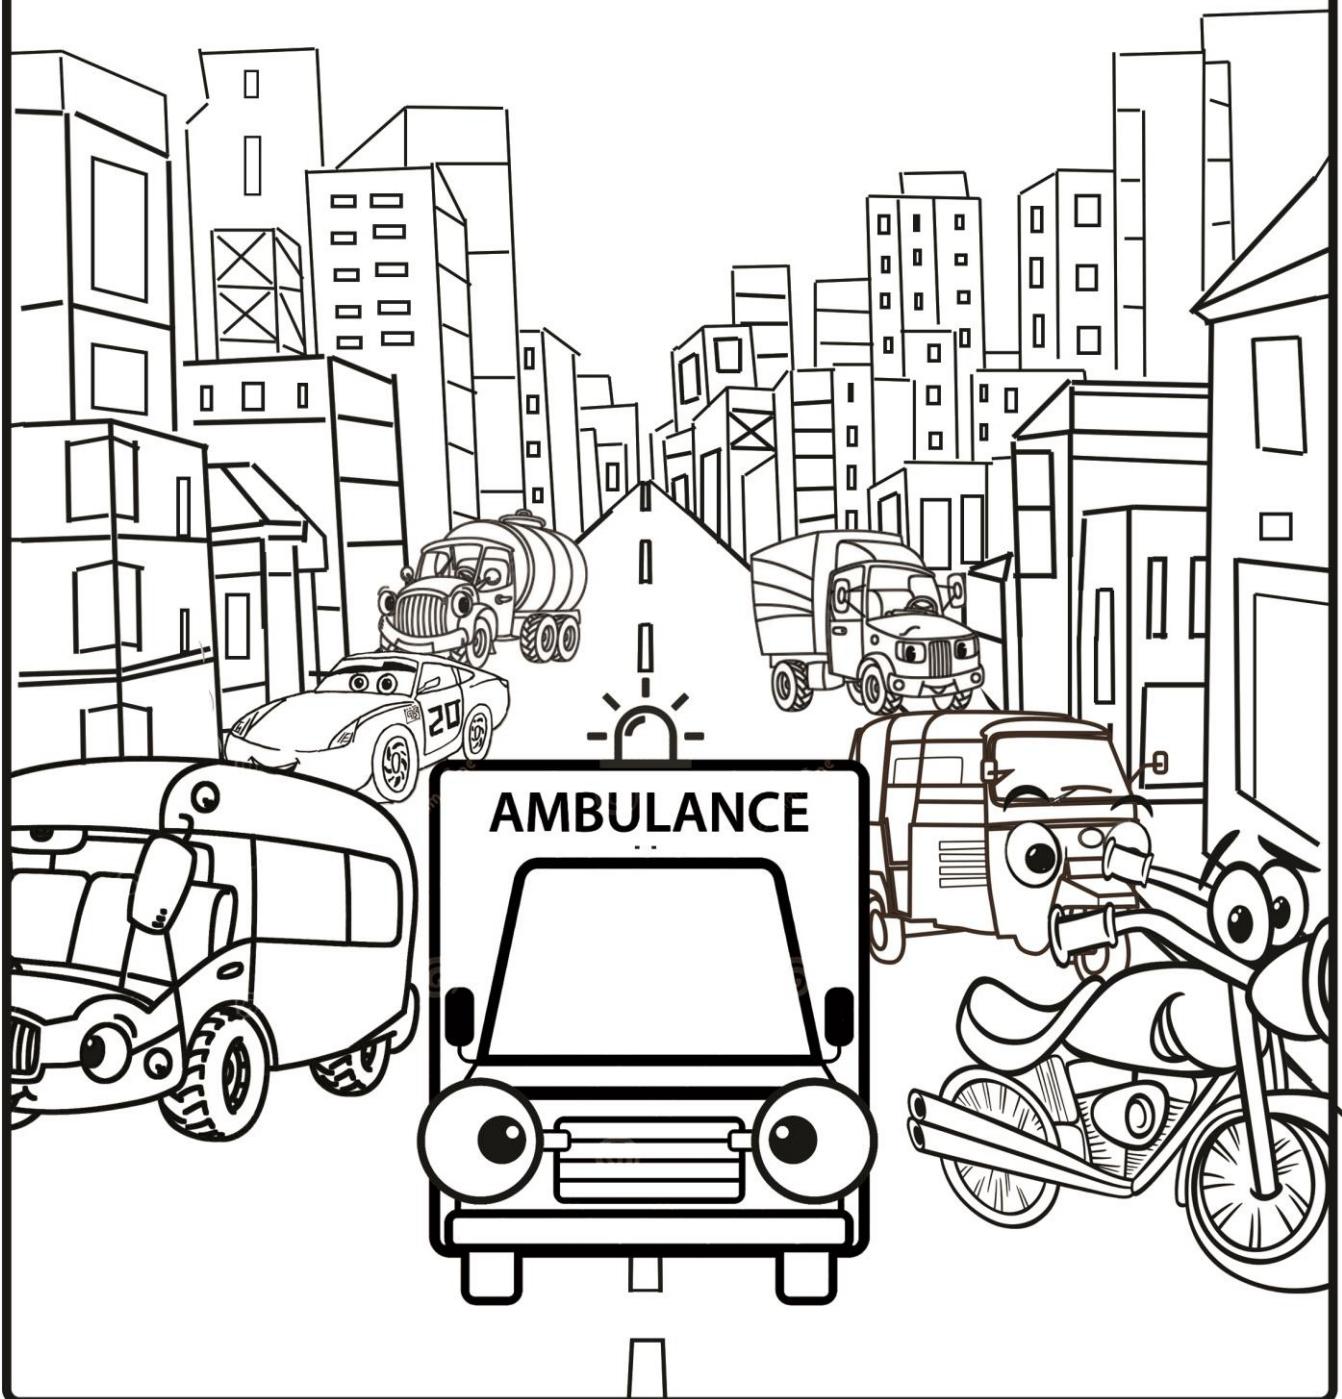

WHY?

Excess exposure to honking can cause early hearing problems, heart issues, sleep disturbance and additional stress.

Do not use your mobile when driving to attend calls and to read or send text messages.

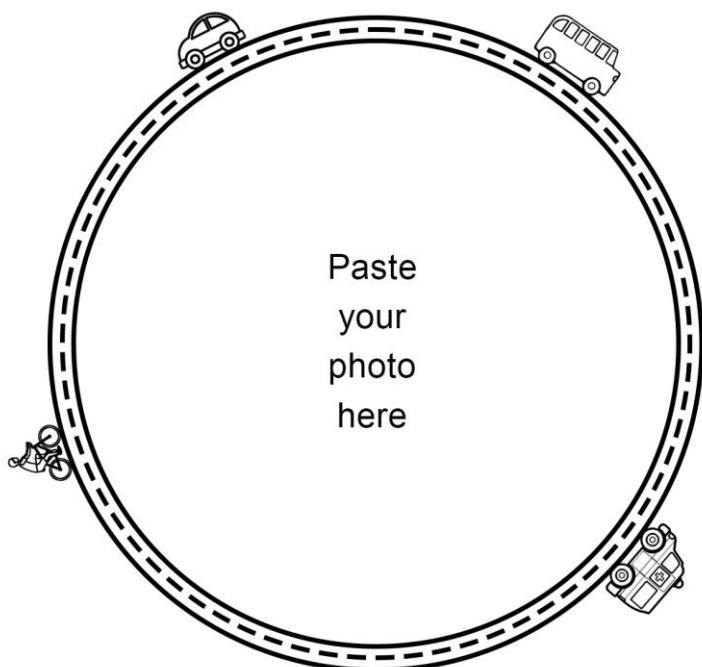

WHY? Using mobile while driving distracts the driver from the road and makes them 4 times more likely to be involved in an accident as per WHO.

When you see or hear an ambulance behind your vehicle, move to the side of the road and slow down or stop to let the ambulance pass.

WHY? An ambulance may be carrying a patient needing emergency care and it is vital that treatment must be provided at the earliest in the 'golden hour'.

I am a Road Safety Champion!

ROAD SAFETY PLEDGE

I will not break any traffic rule for my convenience.

I will be courteous and respectful towards other road users.

I will always be alert on the road and not be distracted by technology.

I will not drive a vehicle until I am 18 years old and get a driving license.

Road Safety Tip

1. Learn how to change a car tyre if there is a puncture.
2. During a puncture, it is important to stop the vehicle in a safe space to the side of the road where there is no risk from other traffic.
3. If you are changing the tyre at night, make sure to place a reflector triangle near the vehicle to warn other road users.

1. Hi Kids! This Super Kid Cop Report Card is an opportunity for you to judge the driving of adults in your home.
2. Take this Super Kid Cop Report Card with you when you go out on a bike or a car with parents or any adult in your home.
3. Observe and grade the adult driving your vehicle with Yes/No based on their driving.
4. Once the report card is complete, show it to your parents or adults at home so that they understand how safe they drive.
5. Always remember that you are a Road Safety Champion!
